

3D Tender RIBs

X-Pro Defender Aluminium Range

WHY 3D Tender?

We set the standard for quality, style and affordability.

VERSATILITY

Whether you are looking for family fun, a high speed RIB a work boat or a lightweight tender, 3D Tender has a boat for you. So many applications with so many options, we assure you of top quality service throughout your purchase and throughout the ownership of your boat.

AFFORDABILITY

Value for money has built the 3D tender brand in Europe and we will continue with that ethos in the UK, we are sure you will not find a better value craft anywhere in the UK.

QUALITY

Advanced designs, top quality materials, new models arriving every year, state of the art CAD design and build with a warrantee to back it up

260 cm – 415 cm This range of boats is simply fantastic. We are confident that you will not find a better value small RIB in the UK today.

G4 Aluminium Hull, designed and tested in the harshest conditions makes this range of boats punch well above their weight.

High set 1600DTEX tubing and a deep V hull entry will give you a dry and smooth ride in challenging conditions. The smaller models are great as tenders, towing and lifting eyes are welded into the hull and the keel protection band will give you piece of

mind when running up the beach. Extremely lightweight and robust these boats are very easy to handle and will serve you well.

Fishing, towing toys, cruising in comfort, divers, free divers, rescue, sailing support, cadet training and as a tender are just some of the uses that the XPRO handles with ease.

The XPRO Aluminium 415 PACK is also supplied with Full console with forward facing drivers seat and drivers bolster
