30 TENDER

FIBREGLASS XPRO DEFENDER RANGE

445cm – 590cm, this range of Rigid inflatable boats has a model for everyone. Stylish colour scheme and an exceptional hull design mean that you will look good and feel good on the water. Our deep V hull will smooth out the chop and the stability offered by the high set tubing will keep you feeling safe even in more difficult conditions. These RIBs are very versatile and are being used today across Europe as Dive boats, support boats, rescue craft, regatta support, fishing, skiing, toys, cruising, navy training craft, RYA training boats and a typical family pleasure boat.

A 50hp four stroke engine will push you through the water at 30 knots, so you can still enjoy great performance whilst running an economical engine, an important advantage when todays fuel costs are taken into account.

All our Defender Ribs are supplied as standard with full console including forward facing seat, drivers bolster, HD over all winter/storage cover a pump and set of oars, they are all supplied with professional grade 1600DTEX PVC tubes and ORCA Hypalon is an optional extra

Available in JET BLACK, Black and Red, Grey and white or special edition black and white.

Look at our prices! You will not find a better value boat in the UK today

ALUMINIUM XPRO DEFENDER RANGE

260CM – 415CM This range of boats is simply fantastic. We are confident that you will not find a better value small RIB in the UK today.

G4 Aluminium Hull, designed and tested in the harshest conditions makes this range of boats punch well above their weight. High set 1600DTEX tubing and a deep V hull entry will give you a dry and smooth ride in challenging conditions. The smaller models are great as tenders, towing and lifting eyes are welded into the hull and the keel protection band will give you piece of mind when running up the beach. Extremely lightweight and robust these boats are very easy to handle and will serve you well. Fishing, towing toys, cruising in comfort, divers, free divers, rescue, sailing support, cadet training and as a tender are just some of the uses that the XPRO handles with ease.

All our Xpro Defender Aluminium boats are supplied with 1600DTEX tubing for excellent resistance to UV and saltwater degradation, A Full HD winter/storage cover, pump and oars. Welded davit lifting eyes, 2 welded towing eyes for toys, double rubbing strakes with spray defelctors, double hand hold lines, 7 carry/mooring handles and an aluminium slider bench seat over a non skid deck. The NEW 420 is now supplied as standard with foward aluminium locker/seat.

The XPRO Aluminium 420 PACK is also supplied with double jockey style console

3D TENDER

Superlight Twin air tender range jet black

What can we say about the Twin air tender range? Quite simply the lightest airdeck tender on the market today by far.

The 230 airdeck weighs just 13Kgs!!!!!!

This range has been designed to scrap the heavy and hard to carry tenders we use today, bulky, hard to stow and usually difficult for a single person to manage. The twin air tender is actually supplied in a back pack style carry bag and will stow easily in most lockers saving space and most importantly weight. The honeycombe high pressure airdeck gives you rigidity and the aluminium bench seat on adjustable sliding rails gives you the comfort and adaptability you need

Remeber, these tenders are made from high quality materials and it has taken us over 2 years to develop such a lightweight range but we have done it and maintained the usual 3D qualities

Model	Pax	CE/ISO	Max hp	shaft	tube dia	weight	chambers	length	width	price
180	2	94/25	2.5hp	short	37cm	10.8kg	2 + 1	180cm	153cm	£459
